

# NEED BETTER TRANSPORTATION OPTIONS FOR YOUR SUPPLY CHAIN?

## TRUCKLOAD SERVICES BY MIQ LOGISTICS

MIQ Logistics solves your transportation needs with solutions that are flexible and unique to your business. Whether your truckload needs are large or small, you can choose from a wide range of service options and equipment, including 53' air-ride vans, temperature-controlled, flatbeds, and other specialized equipment.

## IMPROVING SUPPLY CHAIN PRODUCT FLOW ACROSS NORTH AMERICA

MIQ Logistics delivers access to a large network of transportation service providers. With one phone call, you will find a full range of equipment and the expertise to help you manage truckload shipping for virtually every type of product, regardless of its special needs.

- Multiple options – Equipment to meet your company's shipping needs, including 53' air-ride vans, temperature-controlled, exclusive-use and flatbed trailers.
- Availability – Flexibility to work with you on your specific timelines and transportation requirements.
- Capacity – Access to a continually expanding network of contracted North American service providers, which meet our stringent qualifications.
- Project work – Expertise for successful large or small projects, including rollouts, warehouse relocations, store openings and equipment spotting.
- Specialized needs – Solutions to coordinate handling of your over-dimensional, heavyweight and special trailer requirements.
- Single point of contact – Easy access to assistance throughout your shipment's move, as well as on an ongoing basis.

Let us show you how our truckload services can help your business. For more information, please call 1-800-782-0341 or visit [miq.com](http://miq.com)
